The village is of interior village and majority of the villagers are illiterate. People depend on agriculture for their survival. In the past, child marriage was very common in this area and hence girls student drop out from the school at a faster rate in the Upper Primary section. Now they are more educated and interested in their studies.

Previously, the school has two shift i.e morning shift (LP section) and day shift (Up section). But now there is only one shift and classes are divided according to the strength of the classes. Currently, the new building is still under construction. The strength of the students in the current year is almost two hundred.

The UDISE of RKM LP Mawrah is 17060803301 and the UDISE of RKM UPMawrah is 17060803303

The school had produced many qualified students. Some became teacher, nurse, officer and many more.

With the arrival of Ramakrishna mission in mawrah, it is a blessing for the villagers and the nearby areas.
