

# EDUCATIONAL EXHIBITION

## Annual Educational School Exhibition

Venue: Ramakrishna Mission H/S School, Sobra

All RKM Schools participated in this Educational Exhibition

Our school observe Exhibition regularly since 2011. During those days it was observed bi-annually under the guidance of **Swami Amiteshananda**, Principal. Before that once it was observed in **2005 under the guidance of Swami Supravananda Principal**. Since 2018, this bi-annual Exhibition become Annual Exhibition under the guidance of Swami Anuragananda Principal.

In the beginning years we have started only for the RKM Hr. Secondary School, Sohra, but during the Prize giving Ceremony of Bi-annual Exhibition 2013, Chief Guest Bah Titos Chyne, MLA, request Principal Swami Amiteshananda to include all RKM School of Meghalaya to participate in this exhibition, which was later accepted and implemented from 2015.

In the Exhibition, we include mainly three (3) department- Language, Humanities and Science. In the language department we observe English, Khasi, Hindi and Bengali. In the department of humanities we include History, Geography, Philosophy, Political Science and Education. In the Science department, we include Physics, Chemistry, Biology, Mathematics and Computer Science.

Besides these, the exhibition was included with NCC along with Games and Sports i.e. Physical Education.

The importance of Exhibition in general, whether a science exhibition or an art exhibition or what-ever it may be, has a great influence on the society. Here the exhibitors find scopes to bring out their inherent faculties which in the long-run might be beneficial to the society and the world at large.

Today we live in the age of science and technology. Scientific inventions have changed the approach to the human life. It has given man a new mental attitude and a new social, political and economical outlook. In this age without the study of science and technology a man is a total misfit. Therefore, the study of science and technology is a necessity to every individual.

It must be popularized and we believe one of the ways to get it done is through the exhibition in schools, to shape the students in the all round development of the child.

All the educational institutions must take initiative to organize exhibition at least once in a year for its inbuilt educative value.
