

U Soso Tham Play Day:

The motto of the Ramakrishna Mission is to impart education what we call 'Man Making Education' to all children reading in our school. That is why the mission plans various categories in

imparting physically, mentally and spiritually along with academic education to enrich the instinct capacity of the children through out their studies in whatever carrier they are taking up when they grow up.

The Mission encourages the student's physical education through the primary local costumes which they have already imbibed through their parents, grand-parents about the

indigenous heritages accustoms in the locality or around their localities so as to enrich their way of living through exercises related with songs, dances with indigenous input specially for the students of Lower Primary section.

Therefore, to encourage and inspire the inherent talent we always try to inculcate the young minds through various exercise like physical, exercise, dance, yoga, etc. so that they will be able to continually produce in their course of

study. That is why 'Play-day' is one of the main ideas to impart the primary students to inculcate in their minds during the foundation course of studies so as to enrich their ideas/talents in course of development. The 'Play-day' what we introduce in our school is for the Lower Primary students incorporated to different instances of well-known personality from among the local, national or international statesmanship or the like to encourage the young students to inculcate their minds and passing out from one generation to another. That is the main theme behind it.

Therefore, we have introduced this idea to our young students in all the schools of ours, through the help and guidance of our esteem teachers working enthusiastically in our schools, and it has improved a lot through these

years which we have implemented. Thanks, to the initiative taken by the mission, with the co-operation and co-ordination of our teachers and the likes.
